San Francisco, CA | jobs4bart@gmail.com | (415) 503-7044

Portfolio: [bartdORITY.online](#) | GitHub: github.com/b0rgbart3 | LinkedIn: [Linkedin.com/in/bart-dority](https://www.linkedin.com/in/bart-dority)

Summary

Full Stack Developer and Front-End Engineer with 5+ years of experience building responsive, user-centered web applications using React, Node.js, and modern JavaScript frameworks. Skilled in clean, scalable code, agile methodologies, and cross-functional team collaboration. Background in visual design and branding enhances UI precision and UX quality. Passionate about continuous learning and delivering performant, accessible web experiences

Skills

Languages: JavaScript, TypeScript, PHP, Python, Objective-C, Java, Ruby

Frameworks/Libraries: React, Node.js, Express, MobX, Bootstrap, Materialize, jQuery

Databases: MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, GitLab, VS Code, Jenkins, AWS, Heroku, Xcode

Concepts: RESTful APIs, OOP, state management, MVC, pub-sub patterns, UI/UX design

Experience

Software Engineer

Grid Dynamics, San Francisco CA, *May 2021 - Current*

- Developed front-end features for the SVB-Go fintech platform using React, TypeScript, Node.js, and MobX
- Collaborated in agile sprints with QA, design, and product teams to deliver production-ready UI components
- Integrated RESTful APIs and optimized app performance with Elasticsearch and AppDynamics
- Contributed to deployment workflows using Jenkins, GitLab, and OpenShift

Freelance Web Developer

Dority Design Works, San Francisco, CA, 2005 — 2005–2021

- Designed and built mobile-friendly, database-driven websites for clients across technology, government, education, healthcare, arts, and media
- Managed front-end and back-end development using PHP, MySQL, AWS, and Heroku
- Awarded Silver Caddy for creative excellence on Jeep Liberty website
- Worked with a range of long-term clients including KQED, Doremus Advertising, Organic Inc., the SF Long Term Care Coordinating Council and artists and authors in the U.S. and internationally

Education

Certificate, Full Stack Web Development – UC Berkeley Extension, 2019

Certificate, iPhone Programming – City College of San Francisco, 2016

BFA, Computer Graphics – Pratt Institute, Brooklyn, NY

Projects

Google Bookshelf: - MERN Stack

A full MERN app allowing users to search, save, and persist book titles from Google Books API. It was built with React, Node.js, MongoDB, and Express. It features data storage, RESTful routing, and global state management..
